Thermal Name Tag Printer

You can depend on a direct thermal printer to be the hardworking, no-nonsense sidekick at your registration table. We tailored one for the meeting planner by customizing the accompanying driver with pre-set name tag sizes and providing Nametag Design Software that links up with our fanfold name tag paper stock.

UZEBRA4

Zebra ZC10L Color Printer

Instead of sending your preregistration list and artwork to a print source or ordering pre-printed badges that you customize on-site, you create the professional-looking, full-color plastic badges in seconds, and your attendees can wear them hot off the press. You'll have complete control of your name tags on-site, and that's particularly helpful when you have 1,000 or more attendees and security is high priority
